

Wimpys
 Teton Range
 WY
 Elevation: 9000 ft
 Aspect: E
 Specifics: Cracking; Ski tracks on slope

Brenden Cronin
 01/08/2017 - 2:30pm
 Co-ord:
 Slope Angle: 32°
 Wind Loading: previous

Stability:
 Air Temperature:
 Sky Cover: OVC
 Precipitation: S1
 Wind: SW Light Breeze

HS:260
 PS: 15 214-211cm: Problematic layer

Notes: We did not ski this particular slope but headed south and skied a similar slope.
 Observed some cracking on NE aspect as we traversed towards our ski run.
