 Slope Angle: 24°  
 Wind Loading: no

Stability: **HS: 115**  
 Air Temperature: 2°C PF: 60  
 Sky Cover: FEW  
 Precipitation: NO  
 Wind: SW Light Breeze  
 115-52cm: Probably more layers...  
 5-0cm: Problematic layer

**Notes:** Poor pit location because one side of pit was 115 cm deep and other side was 94 cm deep. Also, there were some rocks at the base of the pit. Small, but they interfered with some measurements
