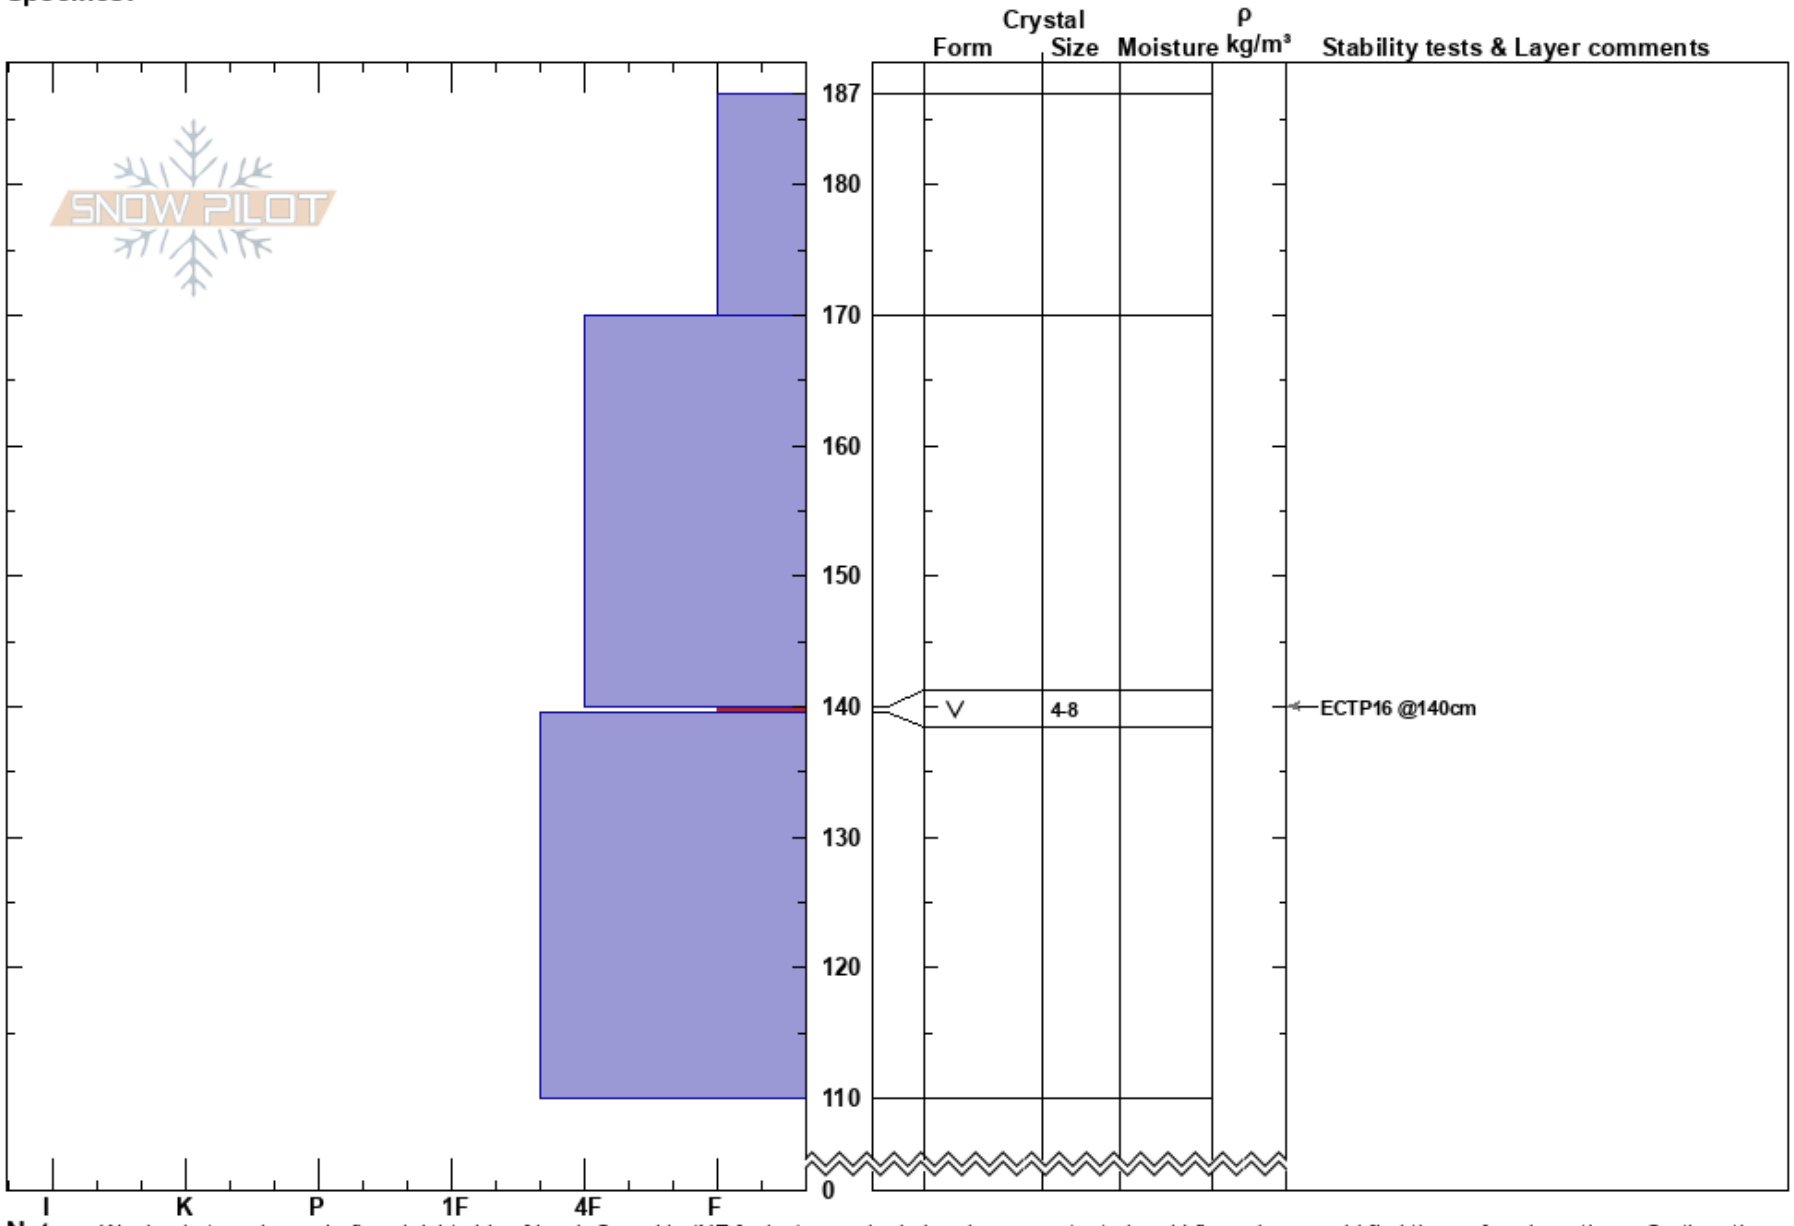
Suicide Bowl
Uinta Range
UT
Elevation: 9685 ft
Aspect: 90°
Specifics:

Mark Staples
02/05/2017 - 11:30am
Co-ord: 40.51687N, -110.89707W
Slope Angle: 25°
Wind Loading:

Stability: Poor
Air Temperature:
Sky Cover:
Precipitation:
Wind:

HS: 187

Layer Notes:
140-139.5cm: Problematic layer



Notes: We dug in two places. Left and right side of bowl. One side (NE facing) was shaded and more protected and I figured we would find the surface hoar there. On the other side, with E exposure and more sun exposure, I didn't think we'd find it but the surface hoar actually had bigger crystals and produced easier results (this pit).
