

Placer Creek Road  
 Bitterroot  
 ID  
 Elevation: 5000 ft  
 Aspect: 340°  
 Specifics:

Melissa Hendrickson  
 03/15/2017 - 9:30am  
 Co-ord: 47.42310N, -115.85021W  
 Slope Angle: 42°  
 Wind Loading: no

Stability: Fair  
 Air Temperature: 2°C  
 Sky Cover: OVC  
 Precipitation: RM  
 Wind: S Calm

HS:230  
 PF: 70  
 180-178cm: Problematic layer

**Notes:** Rain has saturated through the entire snowpack again, slush layer on top of where the last rain/freeze event ended. Didn't observe any natural activity on the open slopes, but sliding was observed where the pack was thinner (trees, open road cuts, rock face edges). Snowpack looked similar on all aspects.
