

Test plus pit
 Berthoud Pass
 CO
 Elevation: 11460 ft
 Aspect: N
 Specifics:

Eric Falconer
 03/28/2017 - 1:02pm
 Co-ord: 39.80693N, -105.78624W
 Slope Angle: 25°
 Wind Loading: no

Stability: HS: 180
 Air Temperature: -2.5°C PS: 10
 Sky Cover: OVC
 Precipitation: S2
 Wind: NE Light Breeze

Notes: I did not dig all the way to the ground because a storm was moving in but i discovered that the new snow was still bonding well and several ice layers were lurking 30cm below the surface. The snowpack was presenting signs of stability. Storm slab and sluffs would be my greatest concern with the new snow and temperature flux.
