

Three Tier
Rattlesnake Mtns
MT
Elevation: 7694 ft
Aspect: N
Specifics: Collapsing, localized; Cracking

Jeff Carty
02/15/2021 - 2:00pm
Co-ord: 47.04000N, -113.98071W
Slope Angle: 30°
Wind Loading: previous

Stability: Poor
Air Temperature: -7°C
Sky Cover: X
Precipitation: S2
Wind: SW Light Breeze

HS: 140
PF: 15
PS: 15
Layer Notes:
105-101cm: Problematic layer

Notes: The area had been alternately loaded and scoured. Subject to N winds most recently and -25°C temps. Large striated crystals 40cm down is very unusual in my experience, but this is what we found.
