

The figure is a vertical profile plot with depth in centimeters on the y-axis, ranging from 0 to 100. The x-axis represents several parameters: **typ**, **kristall**, **storlek**, **fukthalt**, and  $\rho$  (kg/m³). The plot shows a wavy line at the bottom, labeled 235. A label 'ECTP27 @35cm' points to a specific depth of 35 cm. The plot is divided into sections by horizontal lines, with some sections containing symbols like a dash, a slash, a star, and a square.
