Air Temperature:
Sky Cover: OVC
Precipitation: S-1
Wind: Moderate

HS:85
Layer Notes:
25-15cm: Problematic layer

Notes: Had an unofficial ECTP40 at 25cms. Last night's snowfall seemed to come with a light easterly wind- and fill things in very well. Much of the new snow from last night was F- hardness. The winds were moderate from all directions today, and blowing the new snow around along the ridge lines.
