Slope Angle: 20°
Wind Loading:

Stability:
Air Temperature:
Sky Cover: CLR
Precipitation: NO
Wind:

HS: 120
PF: 10
PS: 4
Layer Notes:
 41.2-39.4cm: I could barley feel it
 41.2-39.4cm: Problematic layer

Notes: ECTX, AK Boot No results. Layers were hard to find, Solid Snow pack. I was surprised. I did get 1 hard shear upper pack Jagged, 2 shear moderate Clean. Solo Mission. 2 skiers went along ridge line to Burch/Bues
