**Layer Notes:**  
 190-176cm: some riming  
 162-160cm: Feb 14 layer  
 162-160cm: Problematic layer

**Notes:** Pit dug below treeline in a location with known Feb 14 facet layer. This layer is very isolated in a weak condition. A third ECT performed 20 feet away on the same slope scored ECTN-26 @ 162 cm.
