Box Cyn Uinta Range

Aspect: 330°

Elevation: 9460 ft

Mark Staples 04/14/2022 - 12:45pm UT

Co-ord: 40.71190N, -111.09889W

Slope Angle: 30° Wind Loading:

Stability: Very Good HS: 180

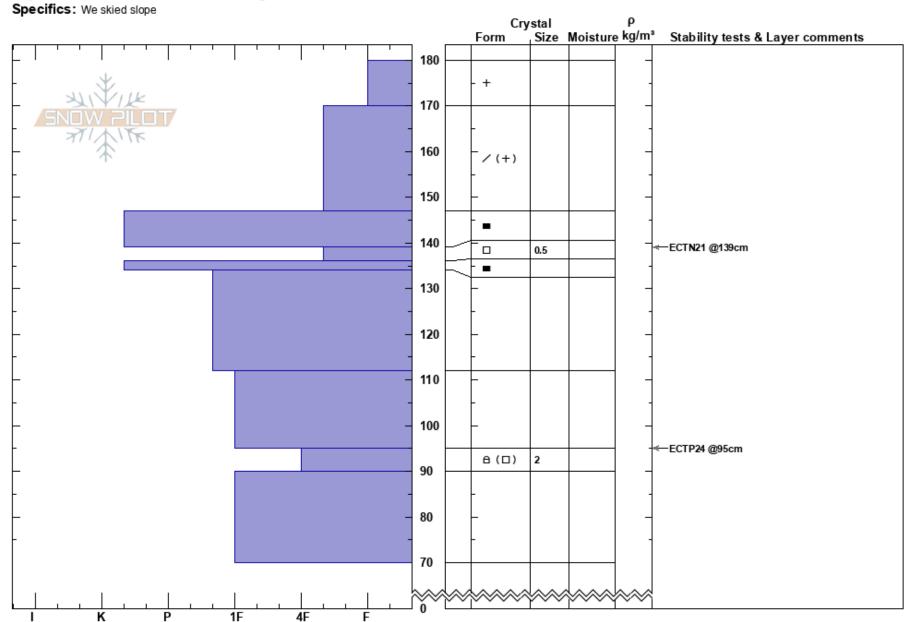

PF: 147 170-147cm: Problematic layer Air Temperature:

Layer Notes:

Sky Cover: BKN **PS**: 170

Precipitation: NO

Wind:

Notes: no collapsing/cracking despite ~1" water in the new snow. Main concern was brief moments of sunshine making the new snow damp. Old fc's are still there but capped by such hard layers that it seems very unlikey to trigger a slide on them.
