

Powder 8 Face

Teton Range

WY

Elevation: 10300 ft

Aspect: NE

Specifics: We skied slope

Rebecca Yaguda

12/13/2022 - 11:00am

Co-ord:

Slope Angle: 29°

Wind Loading:

Stability: Good

Air Temperature:

Sky Cover: SCT

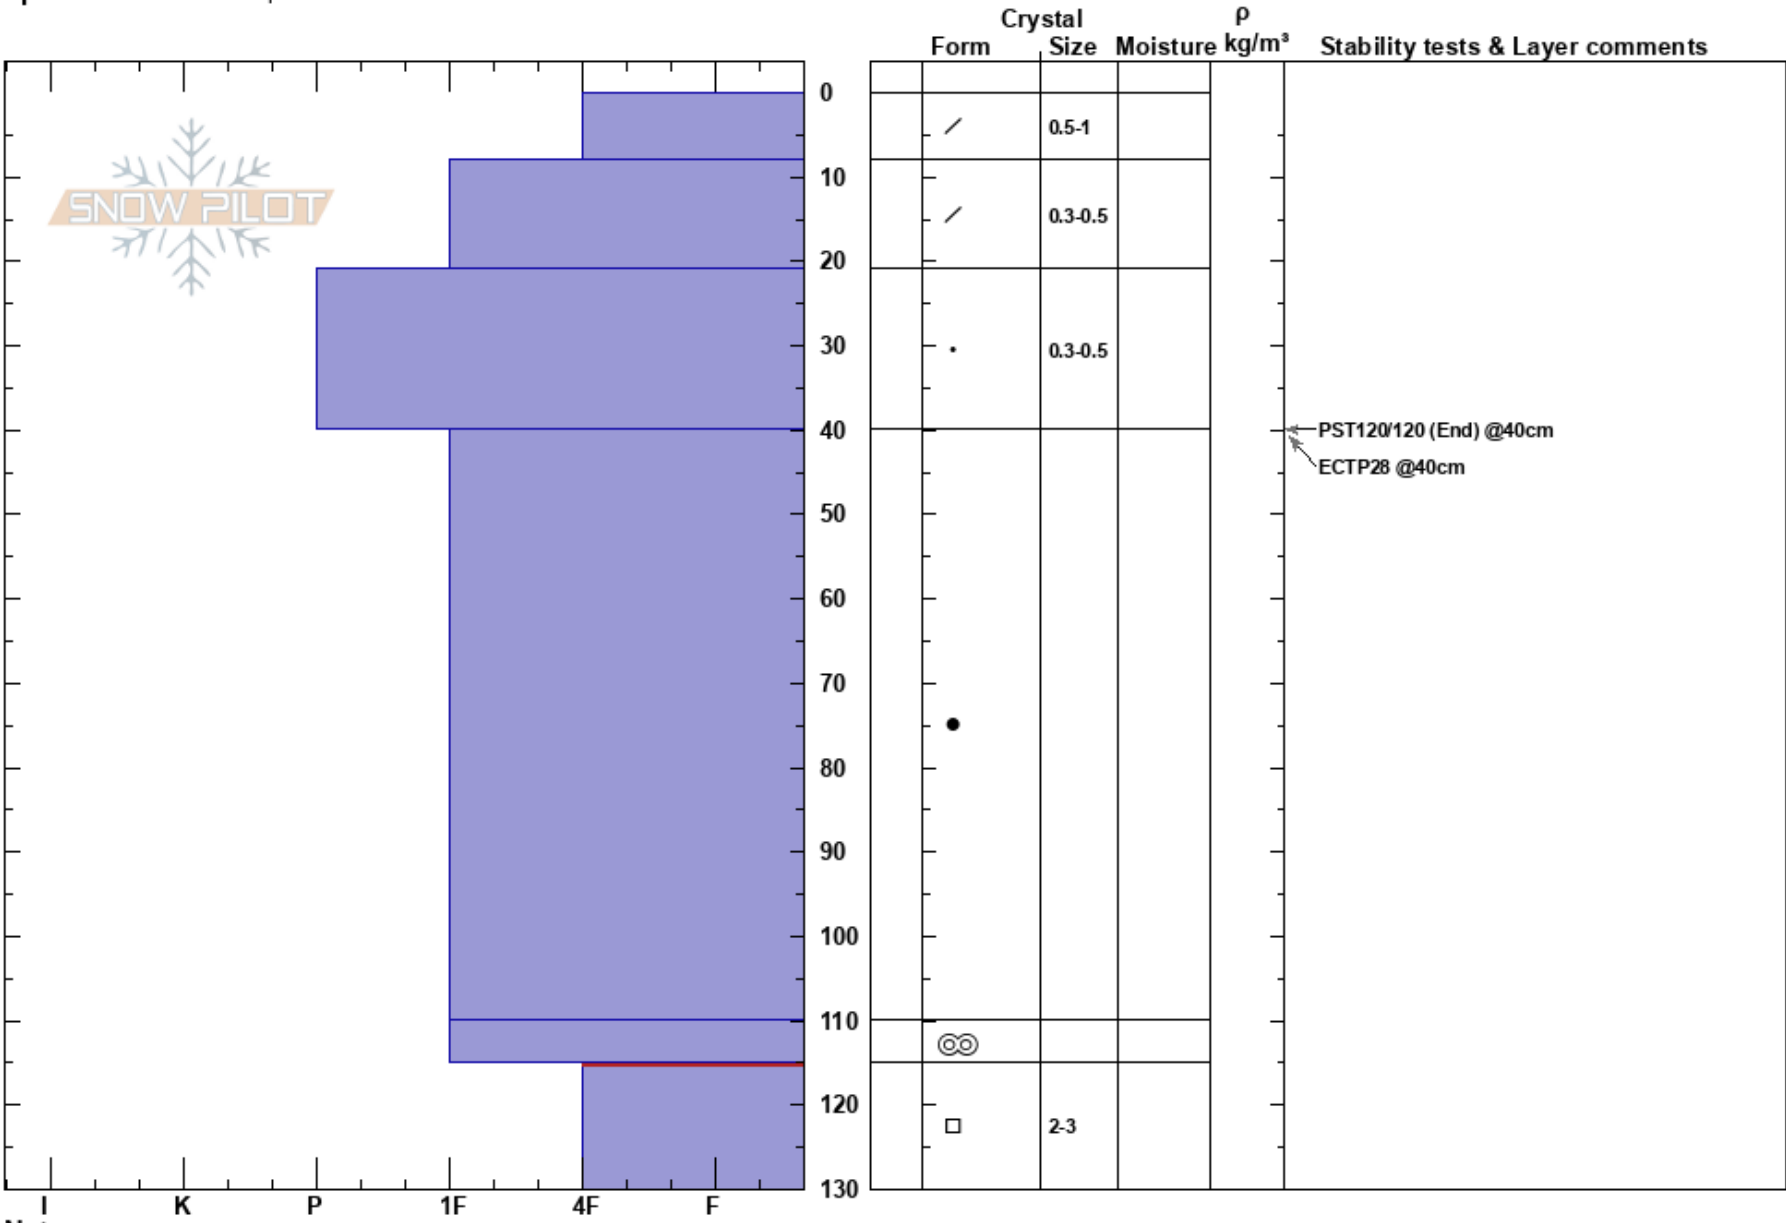

Precipitation: NO

Wind: Calm

HS: 130

Layer Notes:

115-130cm: Problematic layer

**Notes:** With Brian Smith. Performed PST on layer of concern (basal facets) but it was a poor test due to a rock that prevented a clean cut.
