**Co-ord:** 38.45212N, -109.27700W  
**Slope Angle:** 30°  
**Wind Loading:** yes

**Stability:** Good  
**Air Temperature:** 15°C  
**Sky Cover:** OVC  
**Precipitation:** S-1  
**Wind:** N Light Breeze

**PS:** 10  
**Layer Notes:**  
 51-50cm: Problematic layer

**Notes:** The snowpack was mostly right-side up in the top meter of snow that we examined. We did observe some very thin layers where a hardness change seemed evident but it was snowing and blowing so we moved on quickly without noting their exact location within the snowpit layers.
