Co-ord: 40.95565N, -111.77951W
Slope Angle: 22°
Wind Loading: no

Stability: Fair
Air Temperature:
Sky Cover:
Precipitation:
Wind:

HS:340
255-254cm: unsure of hardness
255-254cm: Problematic layer

Notes: Nearly identical layers nearby in an E facing pit at 7640'. Got an ECTP27 in that location at 90 cm down from the surface.
