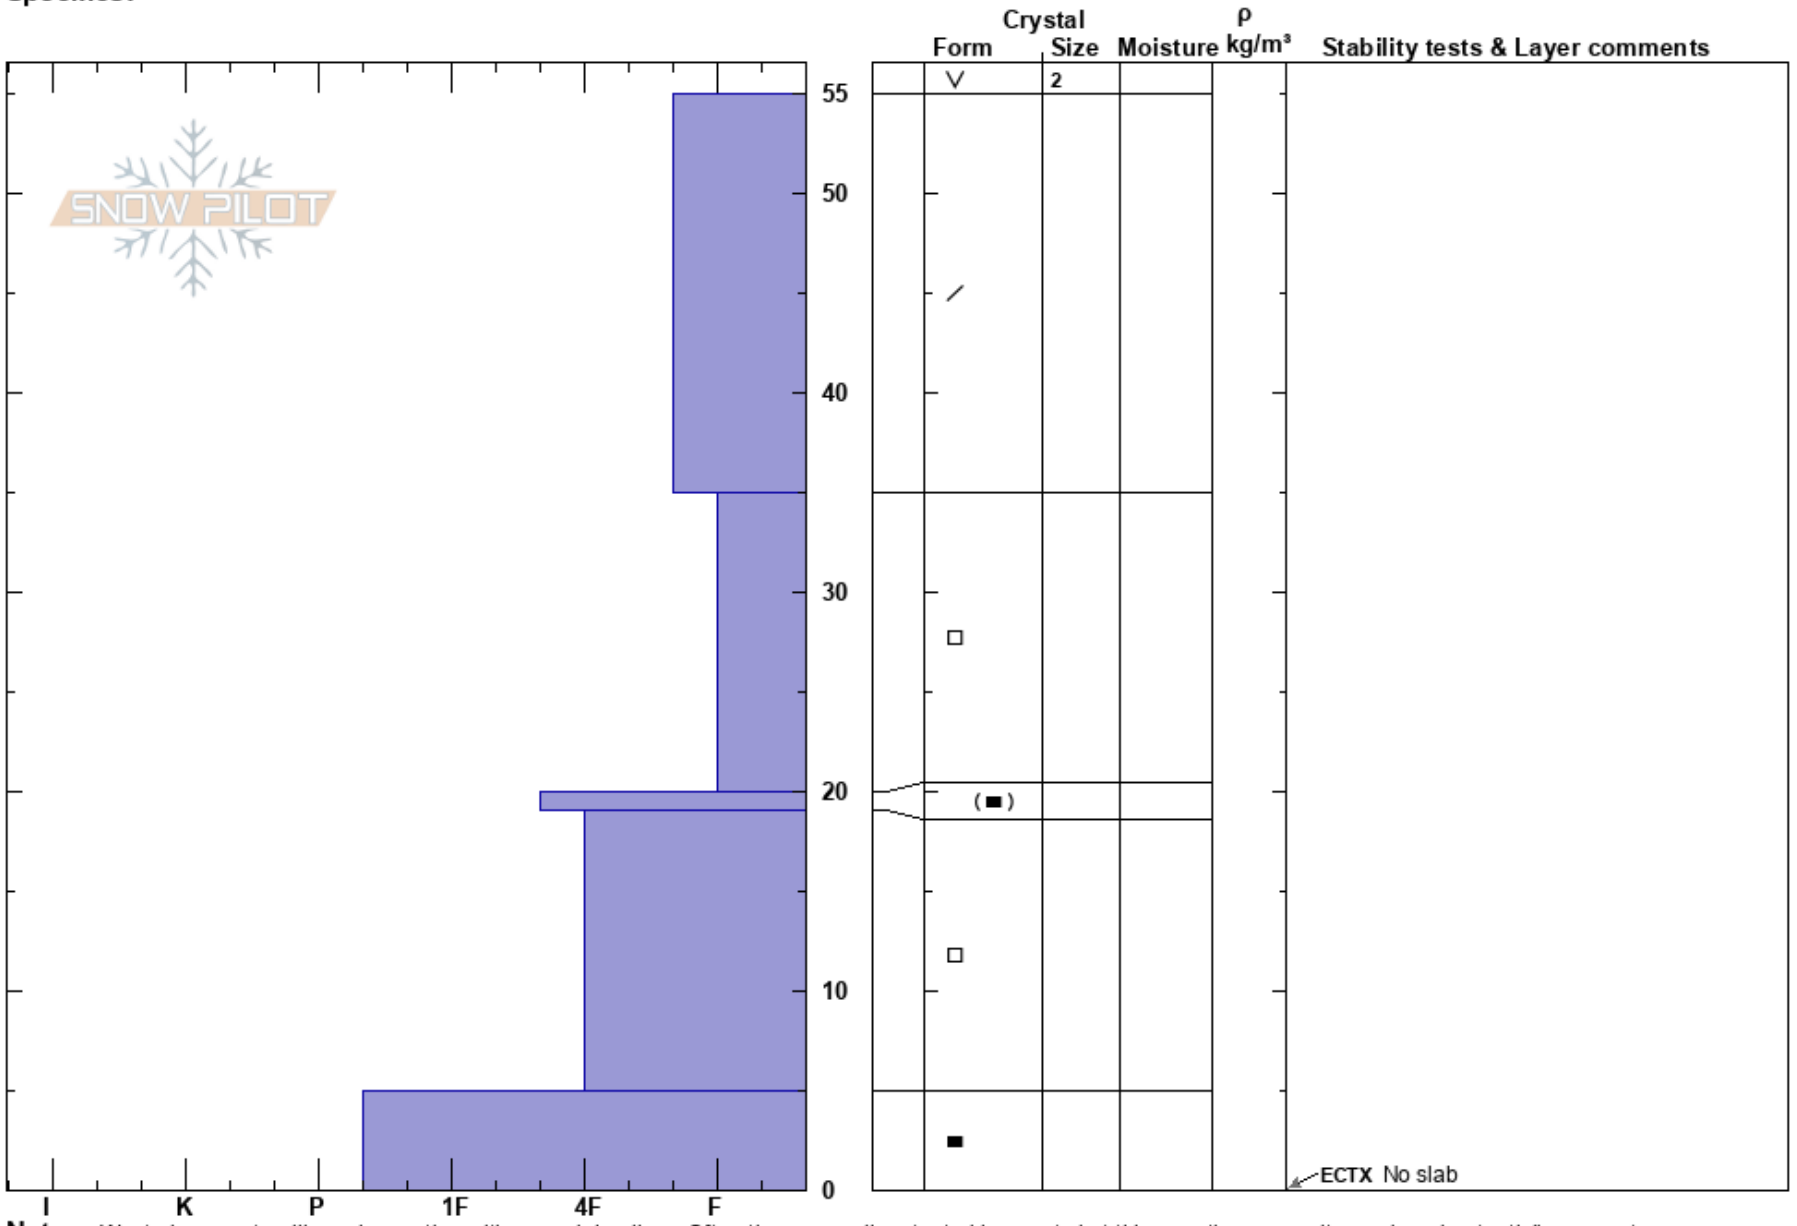
USA Bowl - New Jersey
Central Wasatch
UT
Elevation: 9520 ft
Aspect: 283°
Specifics:

Drew Hardesty
12/06/2023 - 11:00am
Co-ord:
Slope Angle:
Wind Loading:

Stability:
Air Temperature:
Sky Cover:
Precipitation:
Wind:

HS: 55

Layer Notes:
35-20cm: Problematic layer



Notes: Westerly aspects will require caution with enough loading. Often they are well protected by crusts but this year they are quite weak and potentially suspect.
