

**Layer Notes:**  
55-30cm: Problematic layer

**Elevation:** 10350 ft  
**Aspect:** 0°

**Specifics:** Ski tracks on slope; We skied slope

|  | Form | Crystal Size | Moisture | $\rho$<br>kg/m <sup>3</sup> | Stability tests & Layer comments |
|--|------|--------------|----------|-----------------------------|----------------------------------|
|  | □    |              |          |                             |                                  |
|  | ■    |              |          |                             |                                  |
|  | □    |              |          |                             |                                  |

**Notes:** Crust is variable, completely faceted and gone on some slopes. Super weak pack with no load.
